Assignment-5

Title: Create a new branch named feature-test, make one commit on it, and merge it back to the main branch.

```
# Create and switch to a new branch
git checkout -b feature-test

# Make changes to a file and save it
# (Example: edit hello.txt)

# Stage the changes
git add .

# Commit the changes
git commit -m "Added changes in feature-test branch"

# Switch back to the main branch
git checkout main

# Merge the feature-test branch into main
git merge feature-test
```
